

Dr David Armstrong, arguably the world's leading authority on Diabetic Footcare & Wound Management comes Down Under to present

The Future of Diabetic Foot Care

If you are directly or indirectly involved in the care, treatment and/or research of Diabetic Patients don't miss this opportunity to spend 1 day with the man referred to amongst his peers as 'The Guru'

During the course of each seminar Dr Armstrong will cover:

- The current state of play: The Diabetic foot and wounds in the developed and developing world
- Surgical and medical treatments: Screening Procedures: What are the pivotal risk factors?
- Peripheral Neuropathy: Losing the "Gift of Pain"
- 80% of amputations are preventable! Impact of prevention programs
- Temperature measurement – how effective is it? - Wound healing treatments – what's new?
- Pharmacology – Antimicrobials: Offloading modalities
- Foot care and Footwear compliance: General considerations for orthotic prescription

Practical Element:

- Neuropathy assessment: Peripheral Arterial Occlusion Disease – PAOD assessment
- Temperature measurement tools
- Tips & Tricks
- Q&A Session

Full catering is included in the registration. See below for registration details
